**Rob de Haas, CIO, ABN-AMRO**

Right now, a little bit more than 24 hours after an abundance of attention and congratulations (from The Netherlands, UK, Australia) I'm proudly looking back on the CIODAY and winning the CIO of the Year Award. I would like to compliment all the people who contributed on making this a successful and unique day.

**Aloys Kregting, CIO, DSM**

You've done it again!! CIODAY 2008 was (once again) a bigger success than last year. I can imagine it's going to be difficult to top this. I've had a lot of positive feedback from many different people; what a wonderful community it has become. I think that most (of) the people just do not want to miss this because they really want to stay/become (being a) part of this community.
